The committee recommends to the Council that permanent markers be installed by Mr. Bacon at the harbor be purchased at a cost of \$600; also that covered finger piers for the docking of small boats be built within the breakwater area.

The Council voted to hold a special meeting the night of Feb. 29 to discuss these and other recommendations relating to the operation of the harbor.

Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

Palm Beach County's beach erosion problems and possible cures rest in a special election which if decided in the affirmative would create a beach erosion district for the purpose of improving the county's 44 1/2-mile shore line.

The proposed project was subject of a report given Tuesday by County Engineer Steve Middleton at a regular meeting of the county commission.

Middleton said creation of a beach erosion district to carry out a plan to pump sand back on the beaches was the answer to the county shoreline troubles, and is also the same kind of answer which a government survey team reached after studying the areas diminishing beaches.

It is not feasible, Middleton said, to break up the shoreline in small areas—the practical method being to work the entire coastline at one time.

Middleton also reported the U. S. Engineers at Jacksonville have approved in principal a plan to recover \$118,000 in Federal funds to help pay costs of construction of a sand transfer plant at the Palm Beach inlet.

Originally, the engineer said, federal funds were held up until the plant had been completed and the shoreline project carried out. A recent conference, he said, had resulted in county and federal officials arriving on a plan to separate the pump station project and the beach restoration project—

paving the way to regain federal money pledged to the plant project.

In other action, Middleton reported the Florida Shore and Beach Preservation Assoc., plans to seek State fund to help defray costs of beach survey and erosion studies and funds to help finance construction aimed to prevent beach erosion.

Middleton said he plans to confer with State II board representatives about Palm Beach County's beach erosion troubles at a conference Feb. 29.

A conference between County Commissioners and Lake Worth officials has been called for Feb. 29 to discuss traffic congestion on Lake Ave., it was reported Tuesday.

County board members received two resolutions from the Lake Worth Chamber of Commerce, one calling for widening of Dixie Highway through Lake Worth and a second calling for rebuilding the intersection of Lake Ave. and State Road A1A.

The intersection will be the principal item of discussion for the joint meeting.

The Chamber's resolution said increased use of the Lake Worth beach, fishing pier and Casino has caused a boost in the number of autos driving over Lake Ave. to reach these beachside facilities.

Alvy Early Leads Town Team Scoring

Alvy Early swished 30 points while Thurmond Kemp hit 23 and Carney Wilder 11 to lead Pahokee's Town Team to a 79-67 win over a much improved Clewiston team. It was the sixth win without a loss for Pahokee. The team is averaging 85 points a game and three players are averaging 20 points per game or more. They are: Thurmond Kemp (30.8), Alvy Early (25.6) and Dow McClelland (20.8).

Early pumped in 15 field goals and Kemp 11 in the spree. Bill McCleninden, Clewiston coach, hit 29 points and Bob Giddens 13 points for Clewiston.

Local Net Team Loses By 2 Points

The Canal Point Trojans were defeated by two points, 26-24, in a hard-fought basketball game with South Bay on the Canal Point court Tuesday afternoon. Jimmy Goodson led the Trojans scoring with 9 points. Other players scoring for Canal Point were Walter Parker, 7; Waker Young, 5, and Melvin Lamb, 3.

The Trojans plan to participate in the Junior High Basketball Tournament in West Palm Beach March 3, 4 and 5.

Sen. Carlton Is Rote Club Speaker

Doyle E. Carlton, Jr., of Wauchope, candidate for governor, was guest speaker at last week's Thursday luncheon meeting of the Pahokee Rotary Club. Introduced by Wiley Tillis, program chairman, he listed some of the qualifications he believes necessary for the governorship of Florida.

Visitors from Okeechobee, Belle Glade and Clewiston, as well as several local guests, were present to hear Mr. Carlton's talk. Miss Sue Chastain of Canal Point, Pahokee High School Senior, was the guest of Student Member Joseph Alderman. President C. E. Williams presided.

McClelland High Scorer Over PBJC

Dow McClelland scored 23 points and Alvy Early hit 21, with Thurmond Kemp chipping in 17, and that was to much for Palm Beach Junior College, despite Dave McGuire (From Ft. Pierce) 26 points.

As usual, Pahokee raced to an early lead with a strong fast break. It was Dale Hillburn and Charles Hayes clearing the boards and Early, Kemp, and McClelland on the scoring end. Hillburn also hooked and tipped in 10 points. Early had 11 assists off the fast break and Hayes had nine. The leading scorers are: Kemp (28.5), Early (24.5) and McClelland (21). A game is scheduled with Stuart for Wednesday, March 2, at 8:00 in the PHS gym, admission only 25c.

*Uncle Sam made the bonds you own
an even better bargain!*

Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,850.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid
your interest as current income—
invest in 3% Series H

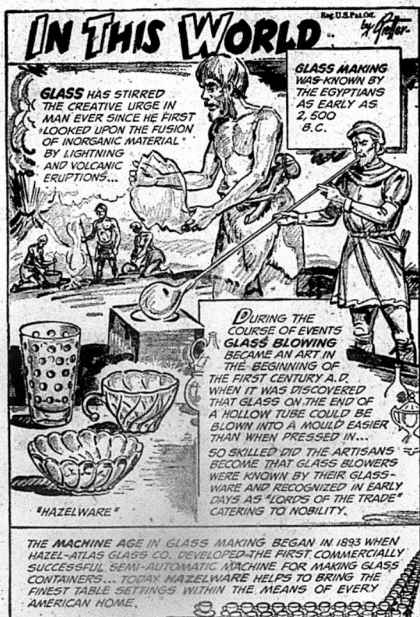

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

Ed Larson Seeks His Old Job Again

TALLAHASSEE—State Treasurer J. Edward Larson is asking the voters to continue him as custodian of their public money and as their representative on 21 of the

J. EDWARD LARSON

State Cabinet boards which administer state business.

Larson, who would become senior member of the Cabinet in January, called the nearly two decades of his state service "an era of our greatest progress in Florida and a period in which we have met and mastered many perplexing challenges."

"But there are opportunities ahead and I am confident we can grasp these in building an even greater state. To that end, I pledge anew the giving to the people of energetic, progressive, and faithful service as their State Treasurer."

Larson served an apprenticeship at all levels of government before being elected State Treasurer in 1940. He was Mayor of his home town of Keystone Heights, member of the Clay county commission, Representative and Senator in the Legislature, and Collector of Internal Revenue for Florida.

Public money flows into the Treasurer's vaults nowadays at the rate of a billion dollars a year. In addition, Larson has the management responsibility for more than half a billion dollars in securities. His businesslike administration of the state's finances has won the praise of independent auditors.

As a member of the Cabinet, Larson has been identified closely with programs of stable financing, mental health, education, and public safety.

Mr. and Mrs. W. P. Gill of Colorado Springs, Colo., spent some time with Mr. and Mrs. O. B. McClure in Pahokee this week. Mr. Gill is a western farmer but was amazed at the thousands of acres of green vegetables he saw grown in the area in February.

Zell Altman For Representative

Zell H. Altman, resident of Lake Worth for the past 21 years, announced his candidacy as member of the House of Representatives of the Florida Legislature from Group I, Palm Beach County, subject to the Democratic Primary May 3, 1960.

Altman has served as City Attorney for Lake Worth during 1954-56, was elected City Commissioner 1957-59, and was reappointed City Attorney in June of 1959, which post he presently holds. He also led Palm Beach County in its successful fight against the reapportionment measure recently submitted to the people. He has constantly been a part of governmental, civic and charitable affairs throughout Palm Beach County.

"Many citizens of Palm Beach County have repeatedly asked me to seek election to the high office of the State Legislature. It is for this reason and the fact that I have had many years of successful experience with the people and their government that I am offering myself as a candidate from Palm Beach County for the House of Representatives. A State Representative must have knowledge of the problems facing every citizen and taxpayer; it is necessary that he have strength and courage to face the many obstacles constantly in the path of good government, and above all, he must handle the affairs of office with honesty, integrity, dignity and strength."

"If elected your representative, I will devote my efforts to the bringing about of a fair and equitable reapportionment measure so that the people of Palm Beach County will receive a dollar's worth of service for each tax dollar paid. I will initiate or support a sorely needed revision of our State Constitution; do everything necessary to make a four-year college in Boca Raton a reality; strive to eliminate waste and unnecessary spending in government. I believe our State government is too far removed from the people and will strive to bring Tallahassee closer to Palm Beach County, and fight to preserve the great principles and traditions upon which our county and state are founded."

"I sincerely believe that my years of experience with your government at all levels qualifies me to be your Representative in the State Capitol. With full realization of this tremendous responsibility and honor, I humbly ask for the support of all citizens of Palm Beach County in electing me to this high office."

A native of Framingham, Mass.

Mr. Altman moved to Lake Worth in 1939. He is the son of Carl F. and the late Bertha M. Altman, outstanding civic leaders in Lake Worth. He is married, lives with his wife Joyce, formerly Joyce Ellison of Lake Worth, and his two children, Cherie and Deborah, at 1325 North Lakeside Drive.

After graduating from Lake Worth High School, he immediately entered the United States Army Air Force. Altman has attended Michigan State College, is a graduate of Palm Beach Junior College and received his LL.B. from the School of Law, University of Miami. He has been engaged in the practice of law here since 1951.

He is a member of Gulfstream Masonic Lodge 245 F&AM, charter member of Sem-I-No Grotto, past president of Palm Beach Lodge B'Nai B'Rith, member and past director of Temple Beth Shalom, past member Salvation Army Advisory Board, member Florida and Palm Beach County Bar Association, past member Legislative Committee of the Palm Beach County Resources and Development Board, member Palm Beach County AAUN, member Lake Worth Junior High P.T.A. member and past director Lake Worth Kiwanis Club, former chairman of the Lake Worth cancer drive, has actively participated in chairmanship capacity, during the last three Fiesta del Sol celebrations, former Lt. Colonel and Group Commander Civil Air Patrol, USAF Auxiliary, member and past president of Palm Beach County Association of Municipalities, one of the organizers and director of the Tri-County Governmental League, and past member Florida League of Municipalities State Legislative Committee for 1959 session of the Legislature.

Tourists Pouring Into South Florida

MIAMI—Mid-season has arrived for South Florida and tourist experts are counting up their gains or losses thus far.

The top 10 oceanfront hotels in Miami Beach are 100 per cent occupied and a number of the lower-priced hotels in the area are filled to capacity. Remainder of the hotel men say their occupancy is running from 70 to 90 per cent.

Hialeah Race Course is experiencing an increase of 5.1 per cent in attendance over last year. Betting is running 5.4 per cent more. Greyhound tracks and jai alai in the area are reporting gains, also, over last year.

Airlines, such as Delta, Northeast, Eastern, National and Pan American, report an average of about five per cent gain in volume and expect a bad jam around Easter when tourists begin to leave.

Seaboard Air Line railroad reports an overall gain of 15 per cent in passenger traffic, with some periods surging 26 per cent ahead of last year. Florida East Coast also reports traffic well ahead of last year.

Consensus of opinion seems to be that South Florida is experiencing a winter tourist season equal to the best in history dollarwise, but that visitors are more spread out than ever before.

New Statements Carry Phone Bills

Two different types of statements of Long Distance Telephone calls are being mailed to Belle Glade-Pahokee area Telephone subscribers this month.

One statement is the same type received in the past, according to Zeke O'Farrell, Group Manager, for Southern Bell. The other is a new and improved type resulting from Southern Bell's newly developed "mark-sensing" process.

"The mark-sensed" prepared statement will aid the subscribers in understanding his bill of Long Distance calls," O'Farrell says, "By furnishing detailed information for each Long Distance call."

The statement will list the date, the called city and state, the telephone number called and the amount of the call. It will also list the calling and called cities on collect and credit card calls. Only minor abbreviations of names will be used.

"The change over to the new type statement should be complete with the April bills received by our customers since we feel that the training of our people should be completed on or before that date," O'Farrell points out.

Salute to FLORIDA COUNTIES

HENDRY COUNTY

County Seat,
La Belle

Here in these 760,900 acres of rich farmland, vast quantities of sugar cane are turned over to one of the largest sugar refineries in the United States, located in Clewiston. The muck lands of Hendry County turn out winter vegetables for shipment to northern markets—offering a major source of income, along with the important truck farming industry that goes hand in hand with it. The Hendry County Fair and Livestock Show will hold their annual fair March 1 through 5 in 1960.

In progressive Hendry County, and throughout Florida, the United States Brewers Foundation works constantly to maintain sale of beer and ale under pleasant, orderly conditions. Believing that strict law enforcement serves the best interest of the people of Florida, the Foundation stresses close cooperation with the Armed Forces, law enforcement and governing officials.

Christian Science Group Of Canal Point

Christ Jesus' inspiring mission of healing and redemption will be the central topic at Christian Science church services this Sunday.
The Lesson—Sermon entitled "Christ Jesus" will include the passage from John (10:37, 38): "If I do not the works of my Father, believe me not. But if I do, though ye believe not me, believe the works: that ye may know, and believe, that the Father is in me, and I in him."
And from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, this citation will be read (26:14): "Divine Truth, Life, and Love gave Jesus authority over sin, sickness, and death. His mission was to reveal the Science of celestial being, to prove what God is and what He does for man."

Scouts Know How To Measure Work

A Boy Scout comes into close contact with his Scoutmaster and assistant Scoutmaster and generally has a fair idea of the great amount of work they do.
Occasionally a Scout comes to know a few merit badge counselors and meets the men on the board of reviews.

Somehow courts of honor materialize; camp staffs are there at the right time. How isn't the concern of the boys. You pay your dues, then your membership card and Boys Life come at the appointed time like the milkman or the mail. We don't think much about the troop's sponsor unless there's trouble with Lizzie No. 2 or a meeting place. The head of the institution, the institutional representative, the district committee and executive board are beyond our scope, or they're unimportant we think.

Every boy in Scouting gets the biggest fifty-cent bargain he'll ever get. He gets gratis, the time and talent of volunteers he could never have enough money to buy—the time that isn't for sale.

So here and now the boys of Troop 628 wish to express our sincere thanks to our Scoutmaster Louis Mims and Ed Carver, to all the Troop Committeemen, our sponsor the Lion's Club, and to all the people who contribute each year to make our troop a success.

Leadership For Nuclear Study

GAINESVILLE—Florida is providing "bold and imaginative leadership" in the field of nuclear research, Gov. LeRoy Collins says.

Collins, speaking at the dedication of the state's first nuclear reactor at the University of Florida, predicted the state has a bright future in the atomic age.

A host of state, federal and university officials were on hand for the dedicatory ceremony on the university campus. They included Board of Control Chairman J. J. Daniel, University President J. Wayne Reitz and Allen J. Vander Weyden, deputy director of the Atomic Energy Commission.

William J. Clapp of St. Petersburg, president of the Florida Power Corp., and chairman of the Florida Development Commission, said it would be just a matter of time before peaceful effects of nuclear energy will be felt in Florida.

Capt. Rickenbacker Talks To Rotes

Capt. Eddie Rickenbacker, general manager of Eastern Airlines, Tuesday told an audience of some 600 persons which included the County Commission, airport rebuilding programs are needed to meet the jet age in flying.

Rickenbacker was speaker for a joint Rotary Club meeting at West Palm Beach, a session which drew one of the largest audiences in many months.

The nationally known airline executive said he didn't know if the county should build its own modern airport or should combine its efforts with other counties. "You are going to have to add to present airport facilities," he warned.

He predicted that in the next 50 years, Americans will be using planes flying speeds up to 25,000 miles an hour, nuclear powered, that can circle the world without refueling.

Space ships, he said, will be commonplace in the near future—an era when plans will fly from coast to coast in an hour—across the Atlantic in two—span the Pacific in four and around the world in less than ten.

About recent air plane crashes, the EAL executive said these accidents, and those involving ships and cars "are the price we pay for motion."

Jesse Yarborough Secretary State

Jesse H. Yarborough, long-time Dade County civic, educational and governmental leader, Saturday announced his candidacy for the post of Florida Secretary of State.

Yarborough to "use all the pres-

JESSE YARBOROUGH

tige and influence of the office of Secretary of State to end the evils of sectionalism, arrest the creeping development of big government, and effect every conceivable economy without hampering the efficient operation of our State Government."

He had high praise for the retiring Secretary of State R. A. Gray, and said he will "endeavor to carry on an efficient operation of the office in a manner to which the people of the State have become accustomed during the distinguished 30-year career of Bob Gray."

Yarborough pointed out that the Secretary of State is a vital member of the State Cabinet, "which has the responsibility for formulating the policies which determine how far and how fast our state will progress."

"I will always render fair and just decisions to the very best of my ability, without fear or favor," Yarborough promised.

Yarborough, 53, is a native of Chester, S. C., the son of a Baptist minister, and a 1930 graduate of Clemson College, where he received a Bachelor of Science degree in agricultural chemistry. He received a 1930-31 fellowship at Clemson where he taught, and pursued graduate work in chemistry.

He is married to the former Louise Blanding, daughter of Maj. Gen. and Mrs. A. H. Blanding of Bartow. Camp Blanding, well-known North Florida World War II Army Base, was named for General Blanding. The Yarboroughs have three children; Louise, a Florida State University graduate married to Frank U. Greese; Jessie H., Jr., 20-year-old Clemson sophomore; and Bert, 13.

Yarborough served as Athletic Director and Football Coach at Bartow High School in 1931-32, and from 1932 to 1942 was Athletic Director and Football Coach at Miami Senior High School. During the latter period, Miami High lost only one football game in 10 years to another Florida Team. His coaching record shows 96 wins, 13 losses and four ties.

Yarborough served with the Air Force from 1942 to 1946. He was discharged as a Major after serving as commandant of student officers at Maxwell Field, Ala., in 1946-48 he served as Director of Public Welfare for the City of Miami, supervising parks, recreation golf courses, the Orange Bowl Stadium, auditoriums and public assistance.

In 1948, he was elected to the Dade County Commission, where he served until 1957. He fought hard for home rule in County Government.

In July, 1958, he was appointed to the Dade County Board of Public Instruction, and was elected in 1958 to serve another two-year term.

Yarborough has served as President of the Florida High School Coaches Association and in 1954 was awarded a plaque for distinguished and meritorious service to athletics in Florida by the Association. He is a past president of the Florida County Commissioners

Association, past president of the Florida Advisory Council, and past president of the Miami Kiwanis Club. In October, 1950, he declined an appointment as Dade Sheriff offered by then-Governor Fuller Warren. Yarborough was a member of the original turnpike committee appointed by Governor Warren, which studied and recommended to the Governor enactment of turnpike legislation. He was a member of the 19-man committee authorized by the 1955 legislature, which studied and made recommendations to Governor Collins on taxes in Florida for consideration by the 1957 legislature.

Only last week, Yarborough was elected President of the Orange Bowl Committee. He also serves as trustee of the Miami Boys Club, Chairman of the Membership Committee of the YMCA and Chairman of the Dade County Olympic Fund Committee. He is a Kiwanian, Baptist, Shriner and American Legionnaire.

Yarborough, a real estate and zoning consultant, said he will wage "a vigorous campaign in every corner of Florida to acquaint the people with my qualifications for this most important State Cabinet post."

"Early in the campaign I shall present the people of Palm Beach County with a detailed platform covering the legislative program which I believe will be needed in the 1961 session, and an accounting of my record in the legislature for the past four years," Rep. Blank said.

Coffee Shop Is Under New Manager

The Coffee Shop in Canal Point is being operated by Mrs. Harvey Batchelor of Pahokee and she is being assisted by Mrs. Dot Harvey who formerly operated the Korner Kup in Pahokee. Mrs. Batchelor worked in the local eating spot several months ago so she is thoroughly familiar with Coffee Shop operations. She invites her friends to visit her.
